
Chapter 3—Carriage of documents and emergency and survival equipment information

Division 1—Flight related documents

3.01 Carriage of documents—all flights

- (1) For the purposes of paragraph 121.085(1)(a) of CASR, the following documents are prescribed for carriage on a flight:
- (a) the aircraft flight manual instructions for the aeroplane;
 - (b) either:
 - (i) the flight technical log for the aeroplane; or
 - (ii) if Part 42 of CASR does not apply to the aeroplane—the maintenance release for the aeroplane;
 - (c) the minimum equipment list for the aeroplane;
 - (d) the configuration deviation list (if any) for the aeroplane;
 - (e) the operational flight plan for the flight;
 - (f) the journey log for the flight;
 - (g) the authorised aeronautical information for the flight;
 - (h) the weight and balance documents for the flight.

Note 1: These documents are in addition to documents required to be carried on the aeroplane under subregulations 121.085(2) and (3), and regulation 121.095, of CASR.

Note 2: Other documents may also be required to be carried on the aeroplane under other legislation. For example, documentation regarding the carriage of dangerous goods under Part 92 of CASR, or documentation relating to disinsection requirements and procedures under the *Biosecurity Act 2015*.

- (2) Despite paragraph (1)(a), if:
- (a) the information and instructions that are required under the relevant airworthiness standards for the aeroplane to be included in the aeroplane's flight manual are contained in another document; and
 - (b) the other document is carried on board the aeroplane; and
 - (c) that document does not alter, or contain anything that would conflict with, the information or instructions mentioned in paragraph (a);
- then the document may be carried on board the aeroplane in place of the flight manual.

Note: An exposition that meets the requirements in subsection (2) could be carried on board instead of the flight manual.

- (3) Also, despite paragraph (1)(a), if:
- (a) a checklist of the aeroplane's normal, abnormal and emergency procedures mentioned in paragraph (b) of the definition of ***aircraft flight manual instructions*** in the CASR Dictionary is contained in another document; and
 - (b) the other document is carried on board the aeroplane; and
 - (c) that document does not alter, or contain anything that would conflict with, the information or instructions in the checklist;

then the document may be carried on board the aeroplane in place of the checklist.

3.02 Carriage of documents—flights that begin or end outside Australian territory

For the purposes of paragraph 121.095(2)(a) of CASR, the following documents are prescribed for carriage on a flight of an aeroplane that begins or ends at an aerodrome outside Australian territory:

- (a) the aeroplane's certificate of registration;
- (aa) for a registered aeroplane—the aeroplane's certificate of airworthiness;
- (ab) for a foreign registered aeroplane—the aeroplane's authorisation (however described) that is equivalent to a certificate of airworthiness;
- (b) if the aeroplane has a radio station licence—a copy of the licence;
- (c) if the flight is a passenger transport operation or a medical transport operation—a document containing the information required by regulation 121.110 of CASR (passenger lists);
- (d) if the aeroplane is carrying cargo (other than passenger baggage):
 - (i) a manifest and detailed declaration of the cargo; and
 - (ii) a statement about whether any of the cargo may require special or unusual handling;
- (e) a certified true copy of the operator's Australian air transport AOC;
- (f) a copy of the operations specifications issued to the operator in relation to the operator's Australian air transport AOC.

Note 1: These documents are in addition to documents that are required to be carried on the aeroplane under regulation 121.085 of CASR.

Note 2: For paragraph (b): see the definition of *radio station licence* in the CASR Dictionary.

3.03 Keeping and updating documents etc.

For the purposes of paragraph 121.100(a) of CASR, if the flight is a passenger transport operation or a medical transport operation, a copy of the passenger list for the flight is prescribed.

Division 2—Emergency and survival equipment

3.04 Information about emergency and survival equipment

For the purposes of subregulation 121.135(1) of CASR, if equipment listed in column 1 of an item of table 3.04 is required, under the civil aviation legislation, to be carried on the flight, the information mentioned in column 2 of the item is prescribed for the equipment.

Table 3.04—Information about emergency and survival equipment

Column 1		Column 2
Item	Item of equipment	Information
1	A life raft	The number, colour and type of each life raft carried on the flight
2	A signalling device	The number, colour and type of each pyrotechnic signalling device carried on the flight
3	An emergency medical kit	Details of each emergency medical kit carried on the flight
4	A survival ELT	The type and frequency of each survival ELT carried on the flight
5	Water supplies carried as an item of survival equipment	Details of the water supplies carried on the flight
