

## Chapter 2—Aviation administration functions

### Division 1—General

#### 6 Prescribed aviation administration functions

This Chapter:

- (a) is made for the purposes of paragraph (b) of the definition of ***aviation administration function*** in Part 1 of the Dictionary to CASR; and
- (b) prescribes aviation administration functions that an ASAO may be authorised to perform under regulation 149.075 of CASR.

Note: Exercising ASAO enforcement powers is also an aviation administration function. See paragraph (a) of the definition of ***aviation administration function*** in Part 1 of the Dictionary to CASR.

Section 7

---

## Division 2—Aviation administration functions for sport and recreational aircraft

### Subdivision A—Preliminary definitions and application

#### 7 Part 149 aircraft—sailplanes, powered parachutes, gyrogliders, hang gliders and paragliders etc.

- (1) An aircraft is a **Part 149 aircraft** if:
  - (a) it is an aircraft to which subsection (2) applies; and
  - (b) none of Parts 132, 133, 135 or 137 of CASR applies to the operation of the aircraft.
- (2) This subsection applies to:
  - (a) a sailplane; and
  - (b) a touring motor glider that:
    - (i) is not registered; or
    - (ii) is registered, but subregulation 103.005(2A) of CASR does not apply in relation to the operation of the aircraft; and
  - (c) an aircraft that is not registered and is one of the following:
    - (i) a powered parachute;
    - (ii) a gyroglider;
    - (iii) a hang glider or powered hang glider;
    - (iv) a paraglider or powered paraglider.

Note: The aircraft covered by section 7 are defined as **Part 103 aircraft** under regulation 103.005 of CASR: see subparagraphs 103.005(4)(b)(i), (ii), (iii), (iv), (iva) and subregulation 103.005(5). At the time of the commencement of this section, the aircraft are (in most cases) the subject of one of the Civil Aviation Orders mentioned below, enabling a transitional scheme under which aircraft that are administered by a sport aviation body and are operated in accordance with the relevant Civil Aviation Order are exempt from certain provisions of CAR and CASR (including Part 103):

- (a) *Civil Aviation Order 95.4 (Exemptions from CAR and CASR — Sailplanes and Towing Aircraft) Instrument 2021*; and
- (b) *Civil Aviation Order 95.8 (Exemptions from CAR and CASR — Hang Gliders and Paragliders) Instrument 2021*; and
- (c) to the extent that it relates to powered parachutes, *Civil Aviation Order 95.32 (Exemptions from CAR and CASR — Powered Parachutes and Weight-shift-controlled Aeroplanes) Instrument 2021*.

#### 8 Part 149 aircraft—microlight aeroplanes

A microlight aeroplane is a **Part 149 aircraft** if it is:

- (a) listed with a sport aviation body; and
- (b) operated for a purpose mentioned in Civil Aviation Order 95.10.

## **9 Part 149 aircraft—weight-shift-controlled aeroplanes**

An aircraft that is a single-place or two-place weight-shift-controlled aeroplane is a **Part 149 aircraft** if:

- (a) Civil Aviation Order 95.32 applies to the aeroplane; and
- (b) it is operated for a purpose mentioned in the Civil Aviation Order.

## **10 Part 149 aircraft—ultralight aeroplanes, LSA aeroplanes and lightweight aeroplanes**

- (1) This section applies to the following aeroplanes:
  - (a) light sport aircraft (experimental);
  - (b) light sport aircraft (production);
  - (c) lightweight aeroplanes;
  - (d) ultralight aeroplanes.
- (2) An aeroplane mentioned in subsection (1) is a **Part 149 aircraft** if:
  - (a) Civil Aviation Order 95.55 applies to the aeroplane; and
  - (b) it is operated for a purpose mentioned in the Civil Aviation Order.

## **11 Part 149 aircraft—manned balloons and hot air airships**

A Part 131 aircraft is a **Part 149 aircraft** if it is operated for the purposes of a Part 131 recreational activity.

Note: Such an activity includes a specialised balloon operation that is not conducted for hire or reward.

## **12 Part 149 aircraft—gyroplanes**

- (1) A gyroplane is a **Part 149 aircraft** if:
  - (a) Civil Aviation Order 95.12, or Civil Aviation Order 95.12.1, applies to the gyroplane; and
  - (b) it is operated for a purpose mentioned in the Civil Aviation Order that applies to the gyroplane.

## **13 Application—manned balloons or hot air airships**

Sections 14, 15, 16, 17 and 18 do not apply to an aircraft mentioned in section 11.

Section 14

---

## **Subdivision B—Aviation administration functions in relation to Part 149 aircraft**

### **14 ASAO registration of certain aircraft**

It is an **aviation administration function** to administer a Part 149 aircraft by establishing and maintaining a register (an **ASAO register**) of aircraft that contains sufficient information to enable the identification of any aircraft on the register, the aircraft's owner and the aircraft's operator, including the following information:

- (a) a description of the aircraft, including the manufacturer and the model;
- (b) the aircraft's construction number or serial number (if any);
- (c) the unique identifier issued by the ASAO in respect of the aircraft;
- (d) the name and address of the owner of the aircraft;
- (e) the name and address of the operator of the aircraft.

### **15 Airworthiness standards and assessments etc.**

#### *Setting standards*

- (1) It is an **aviation administration function** to administer a Part 149 aircraft by setting design, manufacturing and maintenance standards (**airworthiness standards**) for the aircraft, including in relation to aircraft, aircraft engines, propellers, rotor systems, materials, parts, processes, and appliances.

Note: Under the function, an ASAO may set a standard for a Part 149 aircraft if the legislation does not otherwise provide for standards for that aircraft under CAR or CASR.

#### *Conducting airworthiness assessments etc.*

- (2) It is an **aviation administration function** to administer a Part 149 aircraft by assessing whether an aircraft design meets an airworthiness standard the ASAO has set for the aircraft under the function in subsection (1).

#### *Determining whether aircraft is a Part 149 aircraft*

- (4) Subsection (5) applies if an ASAO has an approved function mentioned in section 14 or 19 to administer a Part 149 aircraft.
- (5) It is an **aviation administration function** for the ASAO to verify whether an aircraft meets a description and any requirements that are applicable to the Part 149 aircraft the ASAO administers, under:
- (a) Subdivision A of this Division (that defines certain aircraft to be Part 149 aircraft); or
  - (b) any other provision in this instrument or the civil aviation legislation that requires verification to be made regarding a description or requirement that characterises the aircraft as a Part 149 aircraft.

## 16 Airworthiness activities

### *Function*

- (1) It is an **aviation administration function** to administer an airworthiness activity mentioned in subsection (3) in relation to a Part 149 aircraft, including issuing an authorisation to an individual to carry out an airworthiness activity.
- (2) The function includes the following:
  - (a) developing competency standards and units of competency (however described) for Part 149 airworthiness training that must be completed by a candidate for the issue of an authorisation to undertake an airworthiness activity;
  - (b) approving modifications of the aircraft and repairs;
  - (c) approving procedures for weight control of the aircraft;
  - (d) developing a scheme for the issue of special flight permits to permit the aircraft to be flown in particular circumstances when it does not meet the applicable airworthiness standards;
  - (e) developing requirements for the keeping of airworthiness records in relation to the aircraft.

Note: See section 5 for the definition of **weight control**.

### *Activities administered*

- (3) For subsection (1), the airworthiness activities are as follows:
  - (a) carrying out maintenance on the aircraft;
  - (b) carrying out maintenance on an aeronautical product for the aircraft;
  - (c) conducting procedures for weight control of the aircraft;
  - (d) flight of the aircraft under a special flight permit;
  - (e) any other activity concerning the airworthiness of the aircraft.
- (4) Airworthiness activities mentioned in subsection (3) include airworthiness activities that may be performed by individuals:
  - (a) without remuneration; or
  - (b) on behalf of an airworthiness organisation approved by the ASAO under the function in section 17.

### *Authorisations*

- (5) Authorisations to carry out an airworthiness activity include any of the following:
  - (a) an authorisation to an individual to carry out maintenance on the aircraft;
  - (b) an authorisation to an individual to carry out maintenance on an aeronautical product for the aircraft;
  - (c) an authorisation to an individual to conduct procedures for weight control of the aircraft;
  - (d) an authorisation to an individual to conduct a flight under a special flight permit.

Section 17

---

*Definition*

- (6) In this instrument:

**Part 149 airworthiness training**, for an authorisation to carry out an airworthiness activity in relation to a Part 149 aircraft, means training and assessment in all the units of competency (however described) required by an ASAO for the issue of an authorisation to carry out the airworthiness activity.

**17 Part 149 airworthiness organisations**

- (1) It is an **aviation administration function** to administer a person that provides airworthiness services in relation to a Part 149 aircraft (an **airworthiness organisation**).

Note: “Person” includes a natural or corporate person — see section 12C of the *Acts Interpretation Act 1901*.

- (2) The function includes:

- (a) assessing a person’s organisation and its procedures, practices, personnel and facilities to determine whether the person is capable of providing airworthiness services in relation to the aircraft; and
- (b) if satisfied as mentioned in paragraph (a), issuing an authorisation to the person to provide the airworthiness services specified in the authorisation; and
- (c) assessing whether a person to whom it has issued an authorisation to provide airworthiness services continues to be capable of providing the airworthiness services covered by the authorisation.

- (3) In this instrument:

**airworthiness services** means commercial services relating to the airworthiness of an aircraft, including carrying out airworthiness activities, and managing the continuing airworthiness of the aircraft.

- (4) An organisation carries out an airworthiness activity if the activity is carried out on the organisation’s behalf by an individual who holds an authorisation, issued by the ASAO under the function in section 16, that covers the activity.

**18 Part 149 airworthiness training**

- (1) It is an **aviation administration function** to administer a person who conducts Part 149 airworthiness training in relation to a Part 149 aircraft.

Note: “Person” includes a natural or corporate person — see section 12C of the *Acts Interpretation Act 1901*.

- (2) The function includes:

- (a) assessing the person, and the person’s procedures, practices, personnel and facilities, to determine whether the person is capable of conducting Part 149 airworthiness training; and

- (b) if satisfied as mentioned in paragraph (a), issuing an authorisation to the person to conduct the Part 149 airworthiness training specified in the authorisation; and
  - (c) assessing whether a person to whom it has issued an authorisation continues to be capable of conducting the training covered by the authorisation.
- (3) Authorisations under this function include:
- (a) authorising a person to conduct Part 149 airworthiness training in relation to the aircraft; and
  - (b) authorising a person to assess candidates undertaking the training against the competency standards developed by the ASAO for the training.

Note: **Part 149 airworthiness training** is defined in subsection 16(6).

## 19 Flight operations—procedures for safe conduct

- (1) It is an **aviation administration function** to administer a Part 149 aircraft by establishing procedures necessary for the safe conduct of flight operations in the aircraft, in accordance with an applicable CAO and any other provision of the civil aviation legislation that applies to the flight operations.

- (2) In this section:

**applicable CAO** means:

- (a) for a Part 149 aircraft mentioned in section 7 to which Civil Aviation Order 95.4 (sailplanes) applies—that Civil Aviation Order; and
- (b) for a Part 149 aircraft mentioned in section 7 to which Civil Aviation Order 95.8 (hang gliders and paragliders) applies—that Civil Aviation Order; and
- (c) for a Part 149 aircraft mentioned in section 7 that is a powered parachute to which Civil Aviation Order 95.32 applies—that Civil Aviation Order; and
- (d) for a Part 149 aircraft mentioned in:
  - (i) section 8 (microlight aeroplanes)—Civil Aviation Order 95.10; and
  - (ii) section 9 (weight-shift-controlled aeroplanes)—Civil Aviation Order 95.32; and
  - (iii) section 10 (LSA aeroplanes, ultralight and lightweight aeroplanes)—Civil Aviation Order 95.55; and
  - (iv) section 11 (about manned balloons and hot air airships)—Civil Aviation Order 95.54; and
- (e) for a Part 149 aircraft mentioned in section 12 to which Civil Aviation Order 95.12 (gyroplanes not exceeding 250 kg) applies—that Civil Aviation Order; and
- (f) for a Part 149 aircraft mentioned in section 12 to which Civil Aviation Order 95.12.1 (LSA gyroplanes and ASRA-compliant gyroplanes) applies—that Civil Aviation Order.

**ASRA-compliant gyroplane** has the meaning given by section 5.1 of Civil Aviation Order 95.12.1.

Section 20

---

**LSA** is short for light sport aircraft.

## 20 Flight operations—duties essential to the operation of aircraft

### *Function*

- (1) It is an **aviation administration function** to administer the flight operations of a Part 149 aircraft, including authorising individuals to perform a duty essential to the operation of the aircraft.
- (2) The function includes:
  - (a) establishing a certification scheme dealing with the privileges available under, and any limitations of, pilot certifications, ratings and endorsements, to operate the aircraft; and
  - (b) developing competency standards and units of competency (however described) for flying training that must be completed by a candidate for the issue of a pilot certificate, rating or endorsement (a **pilot authorisation**); and
  - (c) developing any other requirements of the ASAO for the issue of a pilot authorisation, including any aeronautical knowledge requirements, flight tests, experience requirements, proficiency checks or flight reviews; and
  - (d) administering the conduct, other than in the aircraft, of aeronautical knowledge training and assessment required for flying training.

### *Activities administered*

- (3) Flight operations administered under this function include:
  - (a) operating the aircraft for a flight; and
  - (b) conducting flying training in the aircraft; and
  - (c) conducting a flight test or assessment of a person during a flight of the aircraft:
    - (i) for the issue of a pilot certificate to operate the aircraft; or
    - (ii) for the issue of a rating or endorsement in respect of activities permitted under a pilot certificate; and
  - (d) assessing the ongoing competency of the holder of a pilot certificate to perform an activity authorised by the certificate and any ratings or endorsements attached to the certificate; and
  - (e) conducting flight testing of the aircraft.
- (4) Conducting aeronautical knowledge training other than in the aircraft, for a pilot authorisation to operate the aircraft, is taken to be a flight operation and is an activity administered under this function.
- (5) Flight operations mentioned in paragraph (3)(b), (c) or (d), or subsection (4), include operations that may be performed by individuals:
  - (a) on their own behalf; or
  - (b) on behalf of the ASAO; or
  - (c) on behalf of a Part 149 flying training organisation authorised by the ASAO under the function in section 21.

*Authorisations*

- (6) Authorisations to conduct a flight operation administered under this function include any of the following:
- (a) the issue of pilot certificates, or ratings or endorsements on a pilot certificate;
  - (b) authorising pilot instructors (however named) to:
    - (i) conduct flying training in the aircraft; or
    - (ii) issue an endorsement to a pilot; or
    - (iii) make recommendations to the ASAO to issue a rating to a pilot;
  - (c) authorising pilot examiners (however named) to:
    - (i) assess candidates for the issue of a pilot certificate, rating or endorsement; or
    - (ii) assess the ongoing competency of the holder of a pilot certificate to perform an activity authorised by the certificate and any ratings or endorsements attached to the certificate;
  - (d) an authorisation to conduct flight tests for a pilot authorisation;
  - (e) authorising a pilot to flight test the aircraft;
  - (f) authorising an individual to conduct aeronautical knowledge training for a pilot authorisation, other than in the aircraft.

## 21 Part 149 flying training organisations

- (1) It is an **aviation administration function** to administer a person that conducts flying training, or flight tests, in relation to a Part 149 aircraft (a **Part 149 flying training organisation**).

Note: “Person” includes a natural or corporate person — see section 12C of the *Acts Interpretation Act 1901*.

- (2) The function includes:
- (a) assessing a person’s organisation, and its procedures, practices, personnel and facilities to determine whether the person is capable of conducting flying training, or flight tests, in relation to the aircraft; and
  - (b) if satisfied as mentioned in paragraph (a), issuing an authorisation to the person to conduct the activities specified in the authorisation; and
  - (c) assessing whether a person to whom the ASAO has issued an authorisation continues to be capable of conducting the activities covered by the authorisation; and
  - (d) approving aeronautical examinations that may be conducted by a Part 149 flying training organisation to assess candidates undertaking flying training.
- (3) Under this function a person may be authorised to be a Part 149 flying training organisation that does one or more of the following for the aircraft:
- (a) conduct flying training;
  - (b) conduct flying tests;
  - (c) conduct aeronautical examinations to assess candidates undertaking flight training.

## Section 22

---

- (4) A Part 149 training organisation conducts flying training, or a flight test, in relation to the aircraft if the flying training, or the flight test, is conducted on the organisation's behalf by an individual who holds an authorisation issued by the ASAO, under the function in section 20, that covers the activity.

Note: See section 5 for the definition of *flying training* for a Part 149 aircraft.

## 22 Applications to undertake aviation activity on basis of existing authorisations

- (1) It is an *aviation administration function* to administer an individual holding an existing authorisation mentioned in subsection (3) in relation to the operation or airworthiness of a Part 149 aircraft.
- (2) The function includes:
- (a) assessing an existing authorisation to determine whether the holder is competent to undertake an aviation activity administered by the ASAO (the *administering ASAO*); and
  - (b) issuing an authorisation to that individual to undertake the activity.
- (3) For subsection (1), an existing authorisation may be either:
- (a) an overseas authorisation; or
  - (b) an authorisation issued by CASA or a sport aviation body other than the administering ASAO.

Note: See section 5 for the definition of *overseas authorisation*, and Part 1 of the Dictionary to CASR for the definition of *sport aviation body*.

## Division 3—Aviation administration functions for parachuting activities

### 23 Parachute descents

#### *Function*

- (1) It is an **aviation administration function** to administer a parachute descent, including:
  - (a) an activity (a **parachute descent activity**) mentioned in subsection (3); and
  - (b) issuing an authorisation to an individual to undertake the activity.
- (2) The function includes:
  - (a) establishing a certification scheme dealing with the privileges available under, and any limitations of, parachutist certifications, ratings and endorsements issued to persons to undertake parachute descents; and
  - (b) developing competency standards and units of competency (however described) for parachuting training that must be completed by a candidate for the issue of a parachutist certificate, rating or endorsement (a **parachutist authorisation**); and
  - (c) developing any other requirements of the ASAO for the issue of a parachutist authorisation, including any aeronautical knowledge requirements, tests, experience requirements and assessments of ongoing competency; and
  - (e) developing requirements for the training of tandem parachutists.

#### *Activities administered*

- (3) A parachute descent activity includes any of the following:
  - (a) undertaking a parachute descent;
  - (b) conducting parachuting training during a descent;
  - (c) assessing trainee parachutists:
    - (i) for the issue of a parachutist certificate to undertake a parachute descent; and
    - (ii) for the issue of a rating or endorsement on a parachutist certificate in respect of activities permitted under the certificate;
  - (d) assessing the ongoing competency of the holder of a parachutist certificate to perform an activity authorised by:
    - (i) the certificate; and
    - (ii) any ratings or endorsements attached to the certificate;
  - (e) ground control;
  - (f) supervising a parachute descent.
- (4) Parachute descent activities mentioned in paragraph (3)(b), (c) or (d) include parachute descent activities that may be performed by individuals:
  - (a) on their own behalf; or

## Section 24

---

- (b) on behalf of the ASAO; or
- (c) on behalf of a parachuting training organisation authorised by the ASAO under the function in section 27.

### *Authorisations*

- (5) Authorisations to undertake a parachute descent activity include:
  - (a) a parachutist certificate entitling the holder to undertake parachute descents; and
  - (b) authorising a person as a parachutist instructor (however named) to:
    - (i) conduct parachuting training for the issue of a parachutist certificate, rating or endorsement; or
    - (ii) issue an endorsement to a parachutist; or
    - (iii) make recommendations to the ASAO to grant a rating or an endorsement to a parachutist; and
  - (c) authorising a person as a parachutist examiner (however named) to:
    - (i) assess candidates for a parachutist certificate, rating or endorsement; or
    - (ii) assess the ongoing competency of the holder of a parachutist certificate to perform an activity authorised by the certificate and any ratings or endorsements attached to the certificate; and
  - (d) an endorsement on a parachutist certificate authorising the holder, in a parachute training operation, to control a parachute descent in which a tandem parachutist is carried; and
  - (e) a student parachutist certificate authorising a trainee parachutist who is receiving training for the issue of a parachutist certificate to undertake parachute descents; and
  - (f) a tandem parachutist certificate authorising a person to undertake a parachute descent as a tandem parachutist; and
  - (g) authorising a person as a ground control assistant; and
  - (h) authorising a person as a drop zone safety officer.

Note: Under the Part 105 Manual of Standards, parachute descents must be supervised by a drop zone safety officer: see section 5.27 of that Manual of Standards.

## 24 Parachuting operations—procedures for safe conduct

It is an **aviation administration function** to administer parachute descents by establishing procedures necessary for the safe conduct of parachute descents in accordance with any provision of the civil aviation legislation that applies to the conduct of parachute descents.

Note 1: See section 3 of the *Civil Aviation Act 1988* for the definition of **civil aviation legislation**.

Note 2: See also section 5.25 of the Part 105 Manual of Standards, which provides for procedures that must be included in an ASAO's exposition.

## 26 Operating an aircraft to facilitate a parachute descent

### *Function*

- (1) It is an **aviation administration function** to administer the operation of an aircraft to facilitate a parachute descent, including:
  - (a) an activity (a **jump pilot activity**) mentioned in subsection (3); and
  - (b) issuing an authorisation to a pilot to operate an aircraft to facilitate a parachute descent by a trainee parachutist or tandem parachutist, or both.
- (2) The function includes developing:
  - (a) competency standards and units of competency (however described) for training and assessment (**jump pilot training**) that the ASAO requires must be completed by a pilot for the issue of a jump pilot authorisation to operate an aircraft to facilitate a parachute descent by a trainee parachutist or tandem parachutist; and
  - (aa) the ASAO's requirements for the issue of an authorisation to a person to assess the ongoing competency of the holder of a jump pilot authorisation; and
  - (b) any other requirements of the ASAO for the operation of the aircraft to facilitate a parachute descent (whether or not in a parachute training operation).

Note: See section 5.23 of the Part 105 Manual of Standards which contains standards for jump pilot training.

### *Activities administered*

- (3) A jump pilot activity includes any of the following:
  - (a) the operation of the aircraft to facilitate a parachute descent (whether or not by a trainee or tandem parachutist);
  - (b) conducting jump pilot training of a pilot of the aircraft during a flight conducted to facilitate a parachute descent, on matters relevant to the conduct of the flight for that purpose;
  - (c) assessing pilots for the issue of a jump pilot authorisation to operate the aircraft to facilitate a parachute descent by a trainee or tandem parachutist;
  - (d) assessing the competency of the holder of a jump pilot authorisation to perform an activity authorised by the authorisation.

### *Authorisations*

- (4) Authorisations to undertake a jump pilot activity include:
  - (a) a jump pilot authorisation entitling the holder (the **jump pilot**) to operate an aircraft to facilitate a parachute descent by a trainee or tandem parachutist; and
  - (b) authorising a person as a jump pilot trainer (however named) to:
    - (i) conduct jump pilot training; or

Section 27

---

- (ii) make recommendations to the ASAO to issue a jump pilot authorisation to a pilot; or
- (iii) assess candidates for a jump pilot authorisation; or
- (iv) assess the ongoing competency of the holder of a jump pilot authorisation to perform an activity authorised by the authorisation.

## 27 Parachuting training organisations

- (1) It is an **aviation administration function** to administer a person (a **parachuting training organisation**) that conducts:
- (a) parachuting training; or
  - (b) jump pilot training.

Note: Pilot training requirements for the purposes of subregulation 105.080(3) of CASR are prescribed in Division 2 of Chapter 3 of the Part 105 Manual of Standards. See also section 5.23 of the Part 105 Manual of Standards, which contains standards for the training of a pilot for the issue of a jump pilot authorisation to operate an aircraft in a parachute training operation.

- (2) The function includes:
- (a) assessing a person's organisation, and its procedures, practices, personnel and facilities to determine whether the person is capable of conducting the training; and
  - (b) if satisfied as mentioned in paragraph (a), issuing an authorisation to the person to conduct the training specified in the authorisation; and
  - (c) assessing whether a person to whom it has issued an authorisation to conduct the training continues to be capable of providing the training covered by the authorisation.
- (3) Under this function, the ASAO may authorise a person to be a parachuting training organisation that does any of the following:
- (a) conduct parachuting training;
  - (b) conduct jump pilot training;
  - (c) assess candidates undertaking parachuting training, or jump pilot training, against the competency standards developed by the ASAO for the training.
- (4) A parachuting training organisation conducts parachuting training in relation to a parachute descent if the parachuting training is conducted on the organisation's behalf by an individual who holds an authorisation issued by the ASAO, under the function in section 23, that covers the parachuting training.
- (5) A parachuting training organisation conducts jump pilot training in relation to a parachute descent if the jump pilot training is conducted on the organisation's behalf by an individual who holds an authorisation issued by the ASAO, under the function in section 26, that covers the jump pilot training.

Note: See section 1.04 of the Part 105 Manual of Standards for the definition of **parachuting training**. See paragraph 26(2)(a) of this instrument for the definition of **jump pilot training**.

## 28 Parachute airworthiness

- (1) It is an **aviation administration function** to administer the airworthiness of:
- (a) a parachute used to undertake a parachute descent under Part 105 of CASR;  
or
  - (b) an emergency parachute.

Note: Part 105 of CASR does not apply to emergency parachute descents: see regulation 105.005 of CASR.

- (2) The function includes:
- (a) issuing an authorisation to an individual to undertake an airworthiness activity mentioned in subsection (3); and
  - (b) developing competency standards and units of competency (however described) for parachute airworthiness training that must be completed by a candidate for the issue of an authorisation to undertake an airworthiness activity mentioned in subsection (3); and
  - (c) developing and publishing requirements (defined as the **Part 105 ASAO's requirements** in paragraph 2.04(4)(b) of the Part 105 Manual of Standards) about the airworthiness of a reserve parachute assembly; and
  - (d) assuming the provision of airworthiness support for a reserve parachute assembly, and publishing airworthiness requirements for that purpose, in the case that the reserve parachute assembly's manufacturer no longer provides airworthiness support for the assembly.

Note 1: Subsection 2.04(4) of the Part 105 Manual of Standards prescribes maintenance requirements for reserve parachute assemblies, for the purposes of paragraph 105.055(3)(b) of CASR.

Note 2: Under section 2.06 of the Part 105 Manual of Standards, if the ASAO assumes the provision of airworthiness support for a reserve parachute assembly as mentioned in paragraph (d), the assembly must be maintained in accordance with the ASAO's airworthiness requirements.

Note 3: See also the exposition requirements in section 5.03 of the Part 105 Manual of Standards, concerning airworthiness requirements and Part 105 ASAOs.

- (3) An airworthiness activity includes the following:
- (a) packing a parachute;
  - (b) maintaining a parachute;
  - (c) assembling a parachute.
- (4) Authorisations to undertake an airworthiness activity include an authorisation to pack, assemble or conduct maintenance on a parachute.
- (4A) Subsection (4B) applies if an ASAO has an approved function mentioned in section 23 to administer a parachute descent.
- (4B) It is an **aviation administration function** for the ASAO to administer the airworthiness activity of assessing the compatibility of a main parachute and the parachute container of a reserve parachute assembly (a **compatibility assessment**), including issuing an authorisation to an individual to carry out the assessment.

Section 29

---

- (4C) The function mentioned in subsection (4B) includes developing competency standards and units of competency (however described) for training that must be completed by a person to undertake a compatibility assessment.

- (5) In this instrument:

***parachute airworthiness training***, for an authorisation to undertake an airworthiness activity, means training and assessment in all the units of competency (however described) required by an ASAO for the issue of an authorisation to undertake the activities covered by the authorisation.

## **29 Applications to undertake parachuting activity on basis of existing authorisations**

- (1) It is an ***aviation administration function*** to administer an individual holding an existing authorisation mentioned in subsection (3) in relation to undertaking a parachute descent or conducting an airworthiness activity in relation to parachutes.
- (2) The function includes:
- (a) assessing an existing authorisation to determine whether the holder is competent to undertake an aviation activity administered by the ASAO (the ***administering ASAO***); and
  - (b) issuing an authorisation to that individual to undertake the activity.
- (3) For subsection (1), an existing authorisation may be either:
- (a) an overseas authorisation; or
  - (b) an authorisation issued by CASA or a sport aviation body other than the administering ASAO.

Note: See section 5 for the definition of ***overseas authorisation***, and Part 1 of the Dictionary to CASR for the definition of ***sport aviation body***.

## **Division 4—Aviation administration functions: miscellaneous**

### **30 Airworthiness function—aircraft operated to tow gliders**

It is an *aviation administration function* to administer the airworthiness of the tow release used in the towing system of an aircraft operated to tow a glider, including authorising persons to carry out maintenance on the tow release.
