

CHAPTER 6 FLYING IN FORMATION

6.01 Purpose

For subregulation 91.205 (1A), this Chapter prescribes the requirements if the pilot in command of an aircraft for a flight is not to be in contravention of subregulation 91.205 (1).

Note The pilot in command of an aircraft for a flight otherwise contravenes subregulation 91.205 (1) if, during the flight, the aircraft is flying in formation, and the pilot has not a prearranged with each pilot in command of the other aircraft making up the formation to fly as part of the formation.

6.02 Gliders

For section 6.01:

- (a) the aircraft must be a glider; and

Note The various forms of glider for this purpose are defined in the CASR Dictionary.

- (b) the glider must be engaged in a soaring flight; and
- (c) the glider must be flying with 1 or more other gliders in a thermal.

Note Such flight constitutes a formation.
